

COVID-19 Checklist for Clubs and Leagues:

#NetsGetReady

All netball clubs and leagues in Wales will be required to complete the following **#NetsGetReady** checklist in order to safely return to play in line with Welsh Netball's 'Return to Play' roadmap. The roadmap, as well as the latest information, guidance and resources can be found here: <http://www.welshnetball.com/c19/>.

There are 5 mandatory requirements for clubs and leagues to complete ahead of participating in organised netball activities from Stage 4 and beyond of the roadmap:

1. Appoint a COVID-19 Co-ordinator
2. Complete Welsh Netball's COVID-19 Co-ordinator Training (online webinar)
3. Undertake a robust COVID-19 Risk Assessment
4. Complete the #NetsGetReady online registration form
5. Re-affiliate your club and members to Welsh Netball for 2020/21 season

1. COVID-19 Co-ordinator

Welsh Netball require each club to nominate an individual to become the 'Covid-19 Co-ordinator' for your Club. Details of the individual will need to be shared with Welsh Netball through the #NetsGetReady registration form (see point 4 below).

To assist clubs in appointing the right and most appropriately skilled person for the role, below is a link to a Role Description that outlines the responsibilities for the COVID-19 Co-ordinator: <http://www.welshnetball.com/c19/#covidresources>.

2. COVID-19 Co-ordinator Training

Who's the training for?

All club and league COVID-19 Co-ordinators will be required to attend Welsh Netball's bespoke training for this role, which will be provided free of charge and accessible via an online webinar.

The COVID-19 Co-ordinator will be required to undertake the training prior to their club/league engaging in organised netball related activities relevant to Stage 4 and beyond of the 'Return to Play' roadmap.

It will be the responsibility of the COVID Co-ordinator to disseminate appropriate information throughout the organisation to the relevant groups of people.

This training will be available from 12th August 2020. To book your space please click [here](#).

Please note that COVID-19 Co-ordinator Training is different from the WSA's online COVID-19 Awareness Training Course. For further information regarding this training and for booking details please click [here](#).

3. COVID-19 Risk Assessment

The current COVID-19 outbreak poses a serious risk to individuals. As we progress from a state of lockdown into a stage of adapted activity, we require all clubs and leagues to carry out regular risk assessments.

Our Risk Assessment Template is designed to support clubs to protect themselves, keep their participants safe and manage the risk of COVID-19 spread and infection. Advice and guidance from Welsh Government and Welsh Netball is constantly being reviewed and updated - risk assessments will need to be constantly monitored and updated in line with the latest information.

Our risk assessment template and guidance can be accessed on the COVID-19 page on the Welsh Netball website: <http://www.welshnetball.com/c19/#covidresources>.

4. #NetsGetReady registration

All netball clubs and leagues will be required to complete our online #NetsGetReady registration form to ensure Welsh Netball has up to date details for its affiliated organisations.

A club/league officer must complete this registration form before any netball activity sessions can take place from Stage 4 onwards.

To complete your #NetsGetReady registration please use the following link: <https://www.smartsurvey.co.uk/s/NetsGetReadyRegistration/>.

5. Welsh Netball Membership 2020/21

Ensure your club and its members renew their membership of Welsh Netball.

As all netball clubs are responsible for ensuring their members can return safely it is important that relevant insurance is in place. Our comprehensive programme of insurance can provide protection for members. As a minimum your Chairperson, Treasurer, Secretary, Safeguarding Officer, Data Protection Lead, Coaches, Officials and COVID-19 Co-ordinator should become members as well as all your players.

The 2020/21 membership season is now open for affiliation with a special early bird discount of 10% off all membership categories during the month of August. To renew your membership please visit www.ourwelshnetball.co.uk.

Netball Activity Session Guidelines

Once your club/league has completed all 5 #NetsGetReady requirements set out above then you are ready to start organised netball activities. To support the safe running of your sessions we have developed a set of [COVID-19 Netball Activity Session Guidelines](#).

This includes the requirement for all attendees to undertake a 'COVID Self Declaration' prior to each session.
